

Headline: Justin Mills Pushes People to Follow Their Dreams by Giving Back

Justin Mills is the head of All Nighter Studios. He is all about giving back to the community and inspiring people to pursue their dreams. He is a working DJ and works to impact and improve London by offering an affordable studio that will help impact the lives of many aspiring artists.

Justin's Background:

Justin started DJing about 15 years ago which led him to co-found All Nighter Studios. He is proud to have followed in his dad's footsteps and it all started by stumbling upon a virtual DJ on his computer. The program intrigued him and after trying it out he started to get really good. When he booked his first gig his passion became more serious and showed him that he could have a future in DJing. His career started to take off which led him to co-founding All Nighter Studios with the hope of giving back to the community.

Work At All Nighter Studios: organisation

All Nighter Studios is a 24/7 self-service rehearsal space for artists. Their rooms are affordable and fully equipped. Since starting the company All Nighter Studios has given back so much to the community. They have given "hours of free sessions to people" they also let people test the studios before booking. Recently All Nighter Studios has linked with Universal Music which has given them so much business. Universal Music rents out the whole studio for their up-and-coming artists. Currently, the business is trying to get youth clubs, and a lot more young people involved. Justin wants to teach others and give his knowledge back to young people. Justin wants to put his expertise to use by helping others see that they can make money from their passion. All Nighter Studios also has a project in the works and while Justin didn't give too much away, he told us its going to be like DJ summer camp. it's all about young people and giving back to the community.

What Does Inspiration Mean To Justin:

Giving back to the community has always been important to Justin because he wouldn't have gotten to where he is without the help of others. No one "can do everything by themselves" so knowing that you have a team can make life experiences worthwhile and then can push you to be a better person. Justin's team consists of friends and family. His parents inspired him and have helped him so much. His dad recommends him to all of his friends and has supported him every step of the way.

What Does Success Mean To Justin:

Something Justin has learned is to "never give up" and to "just go for it". What he means by this is that no one is ever fully prepared to make a huge life decision so you should just go for it and work as hard as you can to make your goals come true. When something doesn't go wrong there is always a way to fix it and turn the tables in your favour. Nothing is ever going to fully go your way so just taking a leap of faith can be worth it. Success to Justin is all about "two steps forward, one step back". Nothing is perfect, and success is an ongoing journey.

Justin has been through 15 years of DJing, and he absolutely loves what All Nighter Studios

is doing for the community. If you are looking for a new hobby or want to pursue a passion visit: <https://allnighterstudios.com/rooms/> to book a room or find out more information.

Feedback:

This is a well-written article that provides an overview of Justin Mills, his journey as a DJ, and his work with All Nighter Studios. However, there are some areas where improvements can be made to enhance clarity, especially when transitioning from his experiences as a DJ to how his father's influence guided him towards starting his new business. Please refer to the suggestions provided above, as well as any additional ones that may be necessary.
